1. Nonpersonal Data

For purposes of this Privacy Policy, "nonpersonal data" means information that does not directly identify you. Additionally, nonpersonal data means "aggregate" and "depersonalized" information, which is data SF collects about the use of SF Services, from which any personally identifiable data has been removed.

SF may use tools or third party analytical software to automatically collect and use certain nonpersonal data that does not directly enable SF to identify you.

The types of nonpersonal data SF may collect and use include, but are not limited to:

- (i) device properties, including, but not limited to IP address, Media Access Control ("MAC") address and unique device identifier or other persistent or nonpersistent device identifier ("Device ID");
- (ii) device software platform and firmware;
- (iii) mobile phone carrier;
- (iv) geographical data such as zip code, area code and coarse location;
- (v) game progress, time used playing, score and achievements;
- (vi) other nonpersonal data as reasonably required by SF to enhance the Services and other SF products and services.

SF may use and disclose to SF's partners and contractors the collected nonpersonal data for purposes of analyzing usage of the Services, advertisement serving, managing and providing the Services and to further develop the Services and other SF services and products.

You recognize and agree that the analytics companies utilized by SF may combine the information collected with other information they have independently collected from other services or products relating to your activities. These companies collect and use information under their own privacy policies.

SF may supplement your personal and nonpersonal data with data received from third parties in connection with demographic, advertisement, market and other analytics surveys or services.

2. Ad Serving Technology

SF reserves the right to use and disclose the collected nonpersonal data for purposes of advertisement by SF or SF's partners and contractors. SF may employ third party ad serving technologies that use certain methods to collect information as a result of ad serving through Services.

SF or third parties operating the ad serving technology may use demographic and location information as well as information logged from your hardware or device to ensure that appropriate advertising is presented within the Service.

SF or third parties may collect and use data for this purpose including, but not limited to IP address (including but not limited to for purposes of determining your coarse location), Device ID, MAC, software, applications, hardware, browser information, internet and online usage information and ingame information.

The foregoing data may be used and disclosed in accordance with this Privacy Policy and the privacy policy of the company providing the ad serving technology. You recognize and agree that the advertising companies who deliver ads for SF may combine the information collected with other information they have independently collected from other services or products. These companies collect and use information under their own privacy policies. These ad serving technologies are integrated into Services; if you do not want to be subject to this technology, do not use or access Services.

Although SF takes commercially reasonable steps to instruct such advertising companies to comply with the terms and conditions of this Privacy Policy, SF does not have access to or control of third party technologies. SF may display to you behaviorally targeted advertising.

If you want to be certain that behaviorally targeted advertisements are not displayed to you, please do not use or access the Services. Additionally please note that if you "opt out" it does not mean that you will no longer receive advertising. It just means that the advertising you see displayed will not be customized to you and your interests and may

be less relevant to you.

3. Location Data

To the extent SF makes location enabled Services available and you use such Services, SF may collect and process your location data to provide location related Services and advertisements.

SF may disclose your personal data to third parties as required by law enforcement or other government officials in connection with an investigation of fraud, intellectual property infringements, or other activity that is illegal or may expose you or SF to legal liability.

7. Cookies, beacons and tracking

The Services may use "cookies" and other technologies such as pixel tags, locally shared objects, clear GIFs and web beacons. SF treats information collected by cookies and similar technologies as nonpersonal data.

The fact that SF is linking to those products or services does not constitute our sponsorship of, or affiliation with, those people or companies.

SF may from time to time make available SF's partners' services, such as sweepstakes or polls and such services may require you to disclose personal data in order to register for and access such services. Such services will reasonably identify the partners at the point of where you are required to disclose personal data. If you at that point choose to disclose your personal data, such personal data may be transferred directly or via SF to such third parties and will be subject to the privacy policy and practices of such third parties.
